

The Process of Fused Bamboo

4-6 years old stalks cut from natural bamboo forest

Cut into length, split into stripes and deskins

dassoXTR

dassoCTECH

Crushed into strands

Heat Treatment Technology

Ceramix Technology

Fused into panels & cut into size

Boards are primed and packaged

dassoXTR dassoCTECH for Exterior Use

Through its patented "heat treatment" technology, dasso processes bamboo into dassoXTR for exterior use in classic "Espresso" color; With the application of Ceramix Technology, dassoCTECH exterior materials have wonderful performance outdoor while retaining the original color - Cognac. Both dassoXTR and dassoCTECH can be processed into decking, cladding, soffit, fence, lumber and panel, which are widely used in commercial and residential projects.

Benefits

Environment Friendly

Mould Resistance

Fire Resistance

Termite Resistance

Hard & Durable

Stable & Precise

About dasso

Dasso group, founded in 1993, is the global leader and innovator of the bamboo industry. With over 26 years' history of the bamboo products production, now we have 8 manufacturing facilities and over 1000 employees, in addition to owning over 2,700 acres of productive, sustainable bamboo forest in China.
